PROFESSIONAL SUMMARY

I am a passionate and dedicated Artificial Intelligence and Data Science student with a strong foundation in programming, machine learning, and data analytics. My expertise includes Python, SQL, Machine Learning, Deep Learning, NLP, and Data Visualization using tools like Power BI. I have hands-on experience with projects involving Computer Vision, Flask-based applications, and full-stack development. I aim to contribute to innovative, data-driven solutions while continuously expanding my knowledge and skills to grow both personally and professionally.

KEY EXPERTISE

Python SQL Machine Learning Flask PowerBI Pyspark RAG GenAI Vector DBs LangChain

EDUCATION

Dr. D. Y. Patil Institute of Technology

2026

B.E. - Artificial Intelligence & Data Science | CGPA: 8.27 / 10

Ahmednagar Jilha Maratha Vidya Prasarak Samaj's, Shri Chhatrapati Shivaji Maharaj College of Engineering, Ahmednagar

2023

Diploma | Diploma - Computer Engineering - Computer Engineering | MSBTE | Percentage: 88.17 / 100

Kendriya Vidyalaya No.2, Ahmednagar

2020

10th | CBSE | Percentage: 76 / 100

PROJECTS

CodeMind AI

15 Sep, 2025 - 20 Sep, 2025

Team Size: 1

Key Skills: Python Langchain groq api ai agent Automation LangGraph LLMs

Project Link: <https://github.com/Vedant22AIDS/AI-engineer.git>

AI-Engineer — Prompt-to-Project Code Generator

Built an AI system that generates complete software projects from natural language prompts. It uses multiple agents (Planner, Architect, Coder) to plan, design, and code full-stack applications automatically. Enabled end-to-end project creation with minimal human input using LangGraph and Python.

Semantic book-recommender

14 Jul, 2025 - 21 Jul, 2025

Team Size: 1

Key Skills:

Machine Learning Python API Handling gradio Hugging Face Transformers

Pre-trained LLMs for classification and emotion analysis

Project Link: <https://github.com/Vedant22AIDS/GurgaonPropInsight.git>

This project demonstrates how to semantically analyze book content to assist in predicting book categories and price-related insights using Large Language Models (LLMs) from Hugging Face's transformers library.

I use two state-of-the-art pre-trained models:

Zero-Shot Classification with facebook/bart-large-mnli

Enables the model to determine whether a book belongs to the Fiction or Nonfiction category without prior training on specific book labels.

Emotion Detection with j-hartmann/emotion-english-distilroberta-base

Detects the underlying emotion in a book description, which can be a critical factor in determining target audience, popularity, and pricing.

ACHIEVEMENTS

- Diploma Topper in College
- Presented research on intelligent data preprocessing techniques for enhancing machine learning model performance at an international IEEE conference

ASSESSMENTS / CERTIFICATIONS

FullStack DataScience Pro

Subjects: Data Science (78 / 100)

Key Skills: Python SQL Flask PowerBI Machine Learning DeepLearning NLP ComputerVision

Completed a comprehensive certification course covering key concepts and tools used in Data Science. The course included hands-on projects and assignments focused on real-world data problems.

Key Learnings:

Python for Data Analysis (NumPy, pandas, Matplotlib, Seaborn)

Data Cleaning and Preprocessing

Exploratory Data Analysis (EDA)

Statistical Analysis and Hypothesis Testing

Machine Learning Algorithms (Supervised & Unsupervised)

Model Evaluation and Performance Metrics

Data Visualization using tools like Power BI / Tableau / Matplotlib

Capstone project applying the full data science pipeline

EXTRA CURRICULAR ACTIVITIES

- Coding Competitions
- Workshops & Seminars Attended workshops on Machine Learning, Data Science, and Software Development. Participated in guest lectures and webinars conducted by industry professionals.

PERSONAL INTERESTS / HOBBIES

- Problem Solving
- Travelling
- Football
